

Name	Bob Hancock	
Position	Project Manager - Spares & Reconditioning	
Date of birth	1950	
Qualifications	C&G Mechanical Engineering Technicians Cert NVQ Level 4 in Management	

Roles and responsibilities:

Reporting to the Engineering and Contracts Director, Bob's main responsibilities include:

- The day to day running and control of the Spares & Reconditioning Centre;
- From enquiry stage through to delivery;
- Formulating the scope of work for repair & reconditioning;
- The control of in house & sub let machining & fitting activities;
- Liaison with customers & suppliers on all aspects of the business;
- Working closely with the sales department servicing new & existing customers;
- Involvement in the preparation of management reports & contract forecasts.

Experience:

Bob has over 40 years Engineering experience all served at DavyMarkham Ltd. Having started with the company in 1966 as an Apprentice Fitter and training for four years, Bob worked on the shop floor as a Fitter until 1976. Although this has equipped Bob with key skills and knowledge regarding the fitting and installation of projects, he has since worked in other business areas and been promoted to more senior roles including; Inspection, Standards Technician, Inspection Department Shift Manager and Major Projects Quality Co-ordinator. In 1995 Bob took his current role in the service centre as Operations/Project Manager.

During these roles Bob has worked in all areas of the business from light through to heavy machining. He has gained specialised skills in the use of laser calibration and other key machining tools and has monitored and controlled the quality of a number of major multi million pound contracts. In his current role as Operations and Project Manager Bob has worked with Corus, SKF, Novalis, Dongkuk, Qusrzelec and Bucyrus.
